HORSES AND MULES

STAR PERFORMERS WEDNESDAY AT STREET FAIR.

MANY ENTRIES ARE MADE

Sixteen Classes to Contest for Prizes in Front of Court House—List of Prizes.

Many entries have been made for the horse and mule show to be given on Wednesday morning and afternoon. The show will start at 9:30 o'clock and will take place on Main street, right in front of the court house yard. Owners of stallions and jacks are to make their individual colt shows from 9:30 to 10:30, and from that time on to dinner time the classes will be given. In the afternoon the show will begin promptly at 1:30 o'clock.

A parade of the show stock will be given at 1 o'clock. The judges for the show have not been selected by the committee, but they will be out-of-town people.

The following is the program and the classes for the show:

10:30 to 12.

Class 1—Best weanling draft colt. First prize $10, second $5, third $3 pair of shoes donated by the Bee Hive Shoe company.

TAYLOR TO DEKALB COUNTY.

And Prof. Cameron Will Go to Clinton County.

President Taylor of the Normal will leave Thursday for DeKalb county to attend the county teachers' meeting at that place. He is on the program for an address. Prof. Cameron is to go to Clinton county on the same day to attend a teachers' meeting. On account of several of the meetings being held on the same day, the Normal faculty has to divide up so as to be able to have a representative at these meetings.

County associations will be organized soon. The members of each county in the normal district are now getting busy, and the organization will be perfected in a few days.

TWO NEW AUTOMOBILES.

One Bought by Joseph Jackson, Jr., and the Other by Paul Sisson.

Barmann & Wolfert sold Monday two Ford automobiles, one to Joseph Jackson, Jr., and the other to Paul Sisson. Mr. Jackson's car is a five passenger car, while Mr. Sisson purchased a single seat car. The cars were driven up from St. Joseph Monday night by Earl Barmann and Dr. E. C. Braniger, being accompanied by Mr. Jackson and Mr. Sisson.

Is Guest of Brother's Family.

Miss Maud Whitchurch of Savannah arrived in Maryville Tuesday noon and is the guest of her brother, F. E. Whitchurch, and family. Miss Whitchurch will demonstrate the Schuyler Electric washing machine and vacuum cleaner for business men of our city. She demonstrated this machine at the state fair at Sedalia, and it was given the blue ribbon over eight other machines exhibited. Miss Whitchurch has met with fine success as a demonstrator in other lines, and will be remembered by many of our people in her work here two or three years ago. The Schuyler machine is manufactured in Savannah.

Went to Kansas City.

Mr. and Mrs. Halbert R. Catterson and little son went to Kansas City Tuesday morning to attend the American Royal stock show. Mr. Catterson will assist his father, Omer Catterson, in his display of Aberdeen-Angus cattle. Mrs. Catterson will be the guest of a former college mate, Mrs. R. E. Fuller. Her little daughter will remain the guest of her grandmother, Mrs. Omer Catterson, as she preferred our street fair to the American Royal show.

Had Guest From Arizona.

Mrs. J. F. Woodring of Phoenix, Ariz., was the guest of Mrs. Scribner Beech, Jr., from Friday until Monday evening, when she went to Barnard to continue her visit there with her grandmother, Mrs. A. J. Dearing. Mrs. Woodring, who was Miss Mayme Dearing, makes annual visits to her grandmother, who reared her from babyhood to young womanhood. She will leave for her home in Arizona Saturday.

Have Been Visiting Relatives.

Mrs. Florence Chrissen of Guthrie, Okla., and Mrs. E. W. Sullivan of El Reno, Okla., who have been visiting the families of Brice C. Hall, near Wilcox, and John Hall, living southeast of Maryville, and other relatives, left Monday evening for Wellington, Kan., to visit other relatives before returning to their homes.

Mrs. Minnie Sunderland of Chicago is the guest of her brother, C. D. Leffler, and family. Mrs. Sunderland is on her way home from a visit in Denver, Col.

MISSOURI IS BEST

STATE REALLY SHOWS WHERE OTHERS MERELY PROMISE.

FOOLISH TO EMIGRATE

Alluring Offers of Other Sections Not So Safe as Those Nearer Home.

Jefferson City, Oca. 9.—In an advance bulletin from the bureau of labor statistics, given publicity today, Commissioner Austin W. Biggs makes an appeal to the Missouri farmers who are being lured away from their state to other sections of the United States and to Canada, and sets forth the advantages they have within their grasp in Missouri. Since Commissioner Biggs and his deputies started their campaign to bring to Missouri a great number of desirable immigrants they have received letters from Missourians who left their native state with dreams of better and fairer lands flowing with milk and honey. With very few exceptions these people write of shattered dreams and often of shattered fortunes. The bureau is doing everything within its power to welcome these homesick wanderers back to the fertile fields of Missouri, and is also collecting information showing the Missouri farmer what his own state has to offer in the agricultural line. The bulletin, in part, is as follows:

"There is not a claim put forth by other sections which cannot be met or counter balanced by Missouri and, in addition, Missouri can advance many claims, supported by facts and figures, which no other section can meet. Situated in the center of the nation and in the midst of the rich and fertile Mississippi valley, being neither classed with the east, west, north nor south, but partaking of the best of each, Missouri ranks high as an agricultural state."

"The western states are known as great fruit producing sections, yet in South Missouri there is a fruit belt which offers greater opportunity for profitable investment than can be found in any other state. There the thousands of orchards yield immense profits because the soil and climate are especially adapted to fruit growing and because the markets of the middle west are near at hand. Missouri leads in the production of tempting big red apples and sweet, juicy peaches; during 1909 $1,678,307 worth of large red and tasty strawberries were grown and marketed and the value of the surplus fruit crop reached the great sum of $7,000,000. A wonderful showing considering the fact that only a small portion of the land that could and should be devoted to the growing of fruit is being utilized.

"Other sections are famous because of the grain they produce, yet as a matter of fact Missouri ranks third as a corn producer and usually seventh in the production of wheat.

"Other states advertise their garden spots, which usually have to be irrigated and are so far removed from the great markets that it is almost impossible to sell fresh vegetables other than locally, yet if the Missouri gardener is alive to his opportunities he has a much better proposition at home. The rich bottom lands throughout the state, sufficiently watered by rainfall and blessed with plenty of sunshine in close proximity to the great city markets, not only of this state, but of those surrounding, and with rapid facilities for the transportation of this class of produce, offers opportunities far greater than can be found elsewhere. Last year the several Missouri counties sold 2,000,000 bushels of potatoes, 1,500,000 bushels of tomatoes and millions of watermelons, each rich, red and luscious; while the value of the surplus vegetables of those counties totaled $5,673,353, and the markets are crying for millions more of these products.

"Why go to a western state to raise cattle when Missouri offers such a profitable investment to the dairyman? The fact that the hills of this state are covered with tender green bluegrass and nourishing wild grasses which are required for rich milk and good butter and her vales flowing with sweet fresh water where the sleek old 'milkers' can drink their fill and then retire to the shade of the trees on the hillside to rest and chew their cuds until their appetites return for the feast nature spreads before them; all of this, together with the fact that all forage crops are grown here, goes to prove that cattle raising and dairying naturally belong to the state. With the dairy interests only partially devel-

GALA WEEK STARTS

MARYVILLE STREETS HAVE ON THEIR HOLIDAY ATTIRE.

PRIZE WINNERS TUESDAY

First to Mrs. Sanders' Car, Second to Miss Corwin's Car, Third to Dr. Fisher's Car.

This Evening's Program.

7:00—Free attraction by the McCoys on platform at Second and Main.

7:30—Free attraction by the Rosards in their marvelous iron jaw and ring act, on the platform at Third and Market streets.

9:30—Free act by the Flying Bickets, on Fourth, between Main and Market streets.

10:30—Free act by Captain Nick Carter, champion high diver of the world.

Wednesday's Program.

Horse and mule show on Main street, in front of court house, in the morning and afternoon. Free attractions will also be given both morning and afternoon, but the program has not been made out at this time.

The opening of Maryville's gala week commenced today. Monday evening no free attractions were given, as they were not ready, and only a few of the shows were ready to open. A concert was given on the streets by the Maryville band, and what shows were ready were given.

The uptown streets presented a beautiful appearance Monday night with all of the electric lights on and the decorations that are up on the streets and in the booths. The city has never been decorated any prettier than it is for this fair.

The attendance at the fair this afternoon was good. Many out-of-town people were in the city and the uptown streets were crowded with throngs of people.

The Albany band, which arrived in the city Tuesday morning, gave a concert in the court house yard at 11 o'clock. The band is to be here all week and is a good one.

This afternoon a free attractions was given at 1 o'clock at the platform on Main and Fifth street by Rosards in their marvelous iron jaw and ring act. The act was a very creditable one. Another free attraction was given at 2 o'clock by the McCoys at Third and Buchanan streets. They do a wire act.

The automobile parade was billed for 1:30 o'clock, but was a little late in starting. While there were not many automobiles in the parade, those that were in were beautifully decorated.

The judges were Dr. R. L. Batz of Skidmore, B. B. Staples, Jr., of Burlington Junction, and Eugene Dowis of Sheridan.

Mrs. R. G. Sanders won first prize for having the best decorated automobile in the parade. The second prize went to Miss Mae Corwin, who drove the Corwin electric car. The third prize went to Dr. A. T. Fisher.

As there was only one out-of-town car in the parade, that being John Sewell of Burlington Junction, he won first prize in the out-of-town cars. The second prize in this class will probably be given to the fire team.

In the lucky class, where everyone entering the parade had a number and a general drawing took place, Miss Mae Corwin winning first prize, the police patrol wagon second, and Dr. A. T. Fisher third, Mrs. R. G. Sanders fourth and John Vert fifth.

The parade was headed by the Albany band, and the following are the machines with their occupants:

No. 1—Driver, Miss Mae Corwin, accompanied by Miss Donna Sisson. Decoration, water lilies with green background.

No. 2—G. B. Roseberry, driver; E. G. Orear, F. G. Shoemaker, Ed C. Curfman, Nick Sturm. Decorations, peanuts and festooning.

No. 3—J. W. Vert, driver; Mrs. J. W. Vert, Mrs. Harry Todd and family. Decorations, red and white festooning.

No. 4—Dr. A. T. Fisher, driver; Miss Hermoine Fisher, Miss Ezora Mutz.

No. 5—Mrs. R. G. Sanders, driver; Miss Retta Sanders of St. Joseph and Miss Marian Sanders. Decorations, wistarias and lavender chrysanthemums.

No. 23—Police patrol, Jesse Fisher, chauffeur; Policemen John Wallace, Frank Bolin, Felix Grundy, John Borrusch and M. H. Borrusch.

City fire department.

Notes.

The Normal closed at noon today in order to give the students a half holiday for the street fair. They will probably close on Thursday afternoon.

* * *

Some of the good shows that have been recommended by the committee are the Alabama minstrels, Walcott's wild west show, the Old Plantation, Mike's museum, Poole's vaudeville and Howell's glass blowers. There are other shows probably as good.

* * *

The street lights go off every night at 12 o'clock.

* * *

So far the police have had no arrests to make on account of drunkenness or disturbance. If only this could keep up all week!

* * *

Congressman Charles F. Booher of Savannah took in the fair this afternoon. Congressman Booher said that he would be back again Thursday.

* * *

Those funny, irresponsible times have commenced, those street fair times, when the band is playing all the time about something or other, and the crowds are going around all the time, mostly for nothing, and everybody laughs at everybody else and they don't know just what about. Just the relaxing time, when you don't have to go primped up and can stand around, look at the redhot candy man make candy, and the hot tamala man make sandwiches, and smile at the bow-wow man ———'s little bow-wows, and keep your eye on the indicator as he tells you to while some one else gets the bow-wow. Last night's crowd was a good first night crowd, and everybody seemed in fine spirits. The places that seemed most popular were the merry-go-round and the bow-wow stand. All kinds of folks rode on the merry-go-round, and little Billie Bailey took his first ride and enjoyed it finely. Some other tiny little folks had a ride whose names we did not know.

* * *

The corn contest booth, erected by the Alderman drk goods store and the Field-Lippman piano firm, where they will conduct the corn contest, is indeed handsome and is attracting much attention. The booth is fifty feet long and fourteen feet wide. The roof has a gable effect by means of pyramids in red and white. The pillars are made of corn and the entire outside has the appearance of being built of corn. Four hundred yards of white muslin and red bunting are used in the decorations and three thousand ears of corn. The work was done by men representing the two firms and is a credit to them.

* * *

All the booths are well built and decorated in the street fair colors of red and white, making an attractive sight with the flying pennants on all the streets about the square. The Chinkey Chonkey booth looks quite pretty and inviting, and the rustic booth of the Bee Hive is quite out of the ordinary. The Royal Neighbors, Woodmen of the World, Rebekahs, Odd Fellows and Owl lodges have commodious booths and are gay in the lodge and street fair colors. The Scott music store, the Montgomery shoe store, the Fern theater, Hudson & Welch, Maryville National bank and D. R. Eversole's store have rest booths for all who wish to avaid themselves of them. Hansen's big cigar booth is a-plenty conspicuous.

* * *

The show windows present a pretty appearance everywhere. The two furniture stores are the most attractive, probably, while the millinery stores are prettier than a little red wagon. The grocer windows are fine, their goods showing to fine advantage.

* * *

At G. L. Allen's store, on the east side is a display of pumpkins, corn, sweet potatoes, beets, popcorn and apples by John M. Holt, that were raised by him on his five-acre tract, west of Maryville, that would do to show at the state fair. The vegetatbles were grown from seed handled by Mr. Allen. The sweet potatoes are the White Jerseys, the Irish potatoes the Early Ohio, the corn Reed's Yellow Dent, Iowa Gold Mine and Boone County White

Returned From Kansas City.

Mrs. O. C. Hanna returned Tuesday noon from a week's visit in Kansas City with Mrs. Dr. R. L. Ready, formerly Miss Inez Drenmon. She was accompanied home by her son, Forrest W. Hanna, who has been in Springfield, Mo., on his business as accountant for the department of labor and commerce.

Mr. and Mrs. Walter Johnson of Pickering were in the city Tuesday attending the street fair and visiting Mr. Johnson's parents, Mr. and Mrs. J. M. Johnson.

NEW TANK AND SILO

REINFORCED CONCRETE, MOST DURABLE CONSTRUCTION KNOWN

WILL LAST A LIFE TIME

Interesting Exhibit at Street Fair, for Which Our Townsman, W. W. Jones, is General Agent.

One of the most valuable exhibits on our streets during this week, and one which should be especially interesting to the farmers and stock raisers of this section, is the Hurst sectional concrete tank. This exhibit is on West Third street, and shows the tank set up all ready for the concrete joining. The Hurst company also manufactures a sectional concrete silo, for which they claim the same advantages as possessed by the water tank.

W. W. Jones, who is the general agent for the territory of Northwest Missouri, Southwest Iowa and the adjoining part of Nebraska and Kansas, in speaking of the tank and silo to a representative of this paper, strongly emphasized the durability of the construction, which is guaranteed to last a lifetime without cracking or leaking.

"If a farmer buys the very best made wagon on the market," said he, "he expects to eventually have to replace it, or a set of scales, or anything else he uses on the farm, but with this it is different. The first expense is the total expense. Once in, the thing is done. And the expense is not as great as you might expect. On tanks of a greater capacity than thirty barrels the expense is no more than for wood or galvanized iron, while naturally on smaller sizes it is slightly more.

"While the concrete tank and silo are new to this section, yet these silos and tanks have stood every possible test for ten years and have been sold in the market for seven. In that time they have made many firm friends and have received many strong indorsements.

"Hon. A. J. Lovejoy, general superintendent of the fair grounds of the Illinois state board of agriculture, says of our tanks: 'We feel that the matter of water tanks is now settled for all time, and that you have the best possible tank to be had.'

"Among the many who have thoroughly tested them are L. F. Swift of Swift & Co., Chicago, and Thomas Harborn, superintendent of James J. Hill's great Michigan stock farm. We believe we have really the best thing ever offered for the permanent improvement of the farms in this section."

Certainly no up-to-date farmer attending the street fair this week will fail to see this latest and most useful article of concrete construction.

2,000 Barrels of Jonathans.

J. D. Ford of this city is busily engaged in barreling his apples from his famous orchard, near Parnell. The workers have just finished barreling his crop of Jonathans, which measured up 2,000 barrels. They are beginning this week on the remainder of the crop, which consists mostly of Ben Davis, which it is likely will measure fully double the crop of Jonathans.

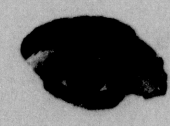
Not ANY Glasses



Don't forget that there ARE Glasses that will do your eyes more harm than good.

The lenses for YOU must be ground to your measure, just the same as a druggist puts up a prescription.

Glasses chosen in any other way are a positive danger.

This point cannot be given too much emphasis.

It is as easy for you to get the right kind as the wrong.

We will choose them for you, and do it in such a way that mistakes are impossible. At

MISSOURI IS BEST

(Continued from page 1.)

oped and with unlimited opportunities for profitable development. Missouri counties in 1909 had a surplus of dairy products amounting to nearly $15,000,000, not considering what was consumed at home. The value of surplus cattle for the same year was $60,000,000 and the surplus live stock, in which is included the famous Missouri mule totaled nearly $150,000,000.

"Missouri is the poultry queen of the Union; she offers the best opportunity for sheep raising to be found in the United States; she has prolific annual production of tobacco, hay, clover, grapes, honey, etc.; and the surplus products of this character in her 114 counties totaled over $340,000,000 for 1909.

Other localities may advertise their invigorating climate, but the Indian summer of Missouri is the most delightful season to be found in the world. During the warm months of the year there is an absence of the blinding sun and burning heat of the south and southwest, where a man's ambition is cooked by the heat and his foresight blinded by the blowing sands. There is an absence in winter of the blizzards and northers of the north and northwest, especially those frequent in Canada, which sweep down on the inhabitants, sending them shivering and freezing to their firesides, from which they dare not stir for days. Missouri, being situated in the center of the temperate zone, does not have to deal with such conditions, but the elements are so blended as to be pleasant and beneficial to both man and beast.

"The Missouri farmer, when urged to go west or north, should stop to consider the fact that he will have to master a new method of farming. The bounteous supply of pure running water and the sufficient rainfall furnished in Missouri by nature, remove from the hand of man the necessity of furnishing water for his crops and stock. With a plentiful supply of water, all the farmer has to do is to carefully till the soil and reap the harvest."

St. Louis Live Stock Market.

National Stock Yards, Ill., Oct. 9.—Cattle receipts, 8,000. Steers 10c higher today; top, $7.90. Butcher cattle unchanged. Best steers 10c higher than last Monday. Good heifers steady; medium steers and butcher cattle 10@15c lower. Outlook for rather steady market, but would advise shipping cattle while the sap is in them.

Hog receipts, 6,800. Active 10c higher market; top, $6.90; bulk, $6.50@6.80. We sold several loads at the top. Conditions of the trade more encouraging.

Sheep receipts, 2,000. Market unchanged today. Compared with last Monday lambs are 25c higher, choice quotable to $6.00. Sheep 10c higher; top, $3.75.

HIS TROUBLE NOT OF HEART

Real Facts In Regard To F. R. Huffman's Illness. Relief Obtained By Curing His Stomach Ailments.

Waynesville, N. C.—Mr. F. R. Huffman, of this city, says: "I suffered dreadfully with what I thought was heart trouble, and tried various medicines in vain.

After other remedies had failed, Thedford's Black-Draught restored me to health. I would not feel safe without Black-Draught in the house. I consider it worth its weight in gold.

It cured my indigestion, and by this means I was restored to health. I can not express my gratitude for its benefits."

Good health depends on the condition of your digestion. Poor digestion and good health do not go together.

Thedford's Black-Draught will thoroughly cleanse and set in order your digestive system.

It has done this for others, during the past 70 years, and is today the most popular vegetable liver remedy on the market. Try it.

ASSAULTED FOR REVENGE?

MAN ATTACKED BLAMES EX-PRISON OFFICERS.

J. P. McDonough Thinks Leavenworth Men Deposed by His Testimony Responsible for Wounds.

Kansas City, Oct. 10.—Revenge by the deposed officials of the federal prison at Leavenworth is believed by J. P. McDonough to be the cause of the wounds he received here at the hands of a stranger. McDonough was active in obtaining evidence against officials in the recent investigation of the prison that resulted in the dismissal of a deputy warden and a superintendent. He has been followed and he thinks that the attack was a result of his collecting evidence and lecturing on the conditions at the prison.

McDonough was accosted on the street by a stranger who introduced himself and complimented Mc.Donough on the lectures he had been giving. They walked to Eight and Main streets together when the stranger invited McDonough into a restaurant. Once inside, the man began to talk about the prison officials who had been discharged and to curse Mcdonough for his part in their dismissal. They left the restaurant and stood on the sidewalk quarreling when the man reached toward his pocket as if to draw a gun. He struck the man who drew a knife stabbing McDonough six times in the abdomen and once in the neck. He then ran east on Eight street.

NAVY YARD SHORT THREE MILLIONS

Scandal May Be Revealed As Result of Discovery.

NO INVENTORY FOR MANY YEARS

Discovery of Shortage Created a Sensation in Department—Faulty Bookkeeping Methods Blamed by Officials.

Washington, Oct. 10.—A big scandal is brewing in the Washington navy yard. The navy department has discovered that there is approximately $3,000,000 less material at the yard than the records call for. Whether this is due to graft or faulty bookkeeping remains to be seen following an investigation started by Secretary of the Navy Meyer. A sensation was created at the yards and the department when this became known.

The shortage has been growing for 25 years. At least, in that time, until within the last few weeks, there never has been an inventory of stock. Now, after an inventory made at Mr. Meyer's suggestion, the discovery is made that there is a discrepancy of more than $3,000,000 between the material on hand and that which should be there, according to the books.

While Mr. Meyer is not yet in possession of facts to warrant the belief that there has been graft at the Washington yard, he is still pursuing the investigation and cannot foresee just what may develop.

Though the condition is laid to loose bookkeeping, at the same time the department says that similar inventories have been made at other navy yards when the same old fashioned method of accounting was discontinued and no substantial loss of materials was found in them.

It was said that combined with the loose methods of bookkeeping was the fact that much ordnance material had been sent to other navy yards without proper invoices; that great quantities of material had been forwarded to the ships in the Spanish-American war without any record of the amount being kept, and that much valuable material was even now being used in construction which might be deducted from the total discrepancy.

Doctors of the Southwest Meet.

Oklahoma City, Okla., Oct. 10.—Unusually large attendance marks the meeting of the Medical Association of the Southwest, which convened in the Masonic Temple this morning. After an address of welcome by Rev. C. H. Jones, D. D., President M. L. Perry of Parsons, Kan., was introduced and delivered his annual address. The section chairman then told the general session what would be done in the section meetings, which began in the afternoon. The local physicians will give the visitors a banquet tonight, and several entertainments have been aranged for the ladies.

Nearly 1,000 pounds of butter and much cheese will be made daily. The exhibit of pure-bred cattle is one of the largest ever made in America.

A HARMLESS WAY TO DARKEN THE HAIR

A Little Sage and Sulphur Makes Gray Hair Vanish—A Remedy for All Hair Troubles.

Who does not know the value of sage and sulphur for keeping the hair dark, soft, glossy and in good condition? As a matter of fact, sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than sage and sulphur, if properly prepared. The Wyeth Chemical company of New York put up an ideal remedy of this kind, called Wyeth's Sage and Sulphur Hair Remedy, and authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

If you have dandruff, or if your hair is thin or turning gray, get a bottle of this remedy from your druggist today, and see what it will do for you.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agents, Koch Pharmacy.

STORM DESTROYED A TOWN

ONLY DEPOT AND PUMPHOUSE LEFT IN ORTIZ, MEX.

Mississippi Rising a Foot an Hour at La Crosse—Black River Falls May Not be Rebuilt.

Nogales, Ariz., Oct. 10.—Wire communication has been established with Ortiz, Mexico, and details of the loss of life and general property damage caused by the storm which swept the west coast of Mexico have been learned.

At Ortiz the telegraph operator stretched a cable from the depot to a group of houses, bridging the torrent. By using the cable, practically all of the inhabitants were saved, but several women and children lost their holds while being transferred and perished.

Two persons are known to have been drowned between Ortiz and Willard. Not a house is left in Ortiz, except the depot and a pump house. The marooned persons lived on the flesh of goats, hogs and cows that they pulled from the water as they drifted past the depot.

La Crosse, Wis., Oct. 10.—The flood from the Hatfield dam is now sweeping the country just north of La Crosse and is increasing the height of the river here at the rate of an inch an hour.

The Northwestern railroad tracks north of La Crosse and Onalaska are under water, there having been in some places a rise of 15 feet since the waters began to go up. Traffic is completely cut off.

That Black River Falls, wiped out by the flood, may not be rebuilt at all, is the opinion of many.

One of the distressing results of the flood will be the filing of petitions in bankruptcy by many merchants. Losses from $20,000 to $50,000 are numerous.

NATIONAL UNDERWRITERS MEET

Insurance Men From all Parts of the Country Gather in Chicago to Talk Business and Feast.

Chicago, Oct. 10.—Swarms of insurance men from all over the country are in Chicago attending the convention of the National Life Underwriters' association, which opened today. The speakers on the program include Insurance Superintendent W. H. Hotchkiss of New York, Leslie M. Shaw, former secretary of the treasury; A. H. Vipond, president of the Canadian association, and Alfred Hurrell. The entertainment includes a reception and ball tonight, an automobile ride through the parks and boulevards and a banquet Thursday evening to close the convention. At the last named function President Henry J. Powell of Louisville will preside as toastmaster and speeches will be made by former Congressman J. Adam Bede of Minnesota, Col. J. Hamilton Lewis of Chicago, Probate Judge Charles Cutting of Chicago, Rev. William T. McElveen of the First Congregational church of Evanston and President J. A. De Boer of the National Life of Montpelier, Vt.

The ladies' auxiliary committee of the Chicago Life Underwriters' association has made arrangements for special entertainment of the ladies who accompany the delegates and visitors.

LEAVENWORTH IS AGAIN RAIDED

Attorney General and Assistants Returned and Got 75 Cases of Beer —General Raid Started.

Leavenworth, Kan., Oct. 10.—Attorney General Dawson and T. J. Montgomery, an assistant attorney general, came to Leavenworth again and started on another series of joint raids. The two officials hurried to the old Brandon & Beal brewery, at Second and Kickapoo streets. There they found 75 cases of beer in storage. The beer was loaded into a wagon and sent to the county jail, after which the officers started on a general raid through the north part of the city, where a number of bootleggers operate, getting patronage from coal miners and soldiers.

Gives College $36,000.

Wichita, Oct. 10.—While in Wichita to attend the yearly meeting of the Friends church, Isaac Hammers of Greensburg, Kan., made it known that he had given to Friends college, the Quaker institution of learning here a section of land near Bucklin, Kan., and lying in Kiowa and Ford counties. It is on the market at $36,000 and is said to be worth at least that. Mr. Hammers is a wheat grower and a member of the Quaker church.

It's Trickett's Job Again.

Kansas City, Kan., Oct. 10.—C. W. Trickett of Kansas City, Kan., has been appointed assistant attorney general for Wyandotte and Leavenworth counties by John Dawson, the attorney general of Kansas. Mr. Trickett will give his personal attention to the prosecution of liquor and gambling cases in the two counties.

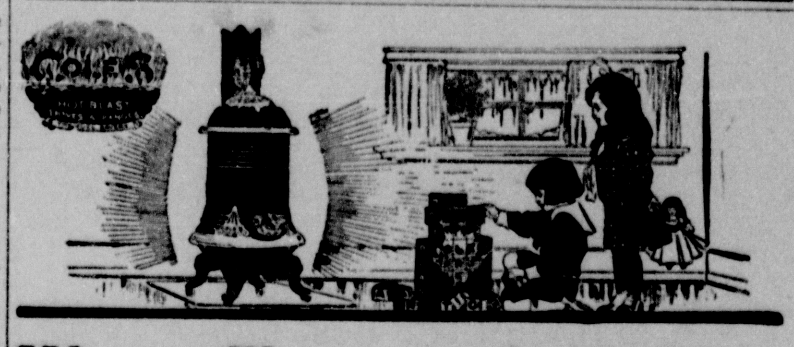
FREE SAMPLE OF LAXATIVE CURED HIS CONSTIPATION

When a person has become discouraged through years of failure to find a cure, and finally, perhaps, gives up trying, it is small wonder that he becomes skeptical. And yet, to all who have constipation, we would say, "Try just one thing more."

We wish you would try Dr. Caldwell's Syrup Pepsin, a laxative tonic that has been used for a generation. Thousands are using it; surely some of your friends among the number. You can buy it of any druggist at fifty cents and one dollar a bottle, but better still, send your name and address to Dr. Caldwell for a free sample bottle. He will send you enough to convince you of its merits, and then if you like it you can buy it of your druggist. Mr. J. J. Petty of Unionville, Mo., Mr. George W. Zimmerman of Harrisburg, Pa., and many others of both sexes and in all parts of the country first used a sample bottle and now have it regularly in the house.

You will learn to do away with salts, waters and cathartics for these are but temporary reliefs while Dr. Caldwell's Syrup Pepsin is guaranteed to cure permanently. It will train your stomach and bowel muscles so that they will do their work again naturally without outside aid. Cast aside your skepticism and try Syrup Pepsin.

For the free sample address Dr. W. B. Caldwell, 541 Caldwell building, Monticello, Ill.



Warm Floors and Healthy Children Make Happy Homes

There is no better way for you to avoid worry and expense than by insuring your children's health.

Warm floors in the home, which is the children's play house in winter, are assured when using Cole's Original Hot Blast Heater.

The steel base and body construction allows the heat to be radiated to the floor keeping it warm during the coldest weather.

Cole's Original Hot Blast Heater

The Cleanest—Easiest to Care For

Burns Soft Coal, Lignite, Hard Coal, Crushed Coke, Wood and Cobs.

Users of coal must remember that the ordinary heater is a big care to operate. That its smoke and ashes entail dusting, curtain washing and carpet sweeping. Think then of the ease of operation and the cleanliness of Cole's Hot Blast.

Cole's Hot Blast has a guaranteed smoke-proof feed door—open the feed door and the current of air draws the smoke directly across the top of stove to the stove pipe—away from the opening. Contrast this simple, cleanly feed with the side door in an ordinary heater. The side door used on other stoves permits escape of dirty smoke, unpleasant gas and accumulated soot drops from it. If you overfill a side door stove, coal falls to the floor. And note this, you cannot make a side door heater air-tight—an everlasting advantage in favor of Cole's Hot Blast which is air-tight and guaranteed to remain so always.

No fires to build—the fire is never out in this remarkable heater from fall until taken down in the spring.

Better select one today—surely it is the heater you need—

WAS HYDE JURY APPROACHED?

Preparation for Second Trial May Show Attempted Bribery.

STATE GATHERING TESTIMONY

Charges Made That Use of Money Was Attempted at First Trial of Famous Case—Prosecution to be Vigorous.

Kansas City, Oct. 10.—Startling testimony of attempted bribery in the Hyde case is being gathered by the state and will be introduced in case any charges are made by attorneys for Dr. B. Clark Hyde in their application for an elisor to take charge of the jury which is to try him for the second time.

Affidavits are being gathered from the deputy marshals who were in charge of the jury, from the tenor of which it is shown that undoubtedly there was an opportunity to obtain money had any one been anxious to do so. The state is investigating the renting of a room in the Ashland hotel at Missouri and Grand avenues, where the jury was confined during the hearing of testimony and its deliberations upon the verdict. This room was rented several days before the jury was called and was located next to the jury room. It was occupied by two men, who, it is said, had $5,000 in their possession and who seemed anxious to communicate with the jurors.

Another piece of testimony of which the state is in possession is that two men, other than the two who were at the Ashland hotel, constantly attempted to get in touch with the jury and at one time managed to get so close that they had to be forcibly removed by deputy marshals.

None of the affidavits taken so far, it is asserted, bear out the charge made indirectly, that deputy marshals solicited bribes.

Declaring that the county marshal and his deputies were biased and prejudiced, and that the coroner was incompetent to serve as marshal because he was a material witness for the state, Dr. B. Clark Hyde has filed a motion for one or more elisors to act during his second trial, set for next Monday.

The law provides that the court shall grant a motion for an elisor on the affidavit of any reputable attorney, and it may be that the affidavits of the Hyde lawyers will be sufficient. Virgil Conkling, prosecuting attorney, is giving the Hyde case his undivided attention and will conduct a prosecution more vigorous, if possible than the first.

Should the state not oppose the appointment of elisors, the hearing will consume but a few moments, and it may be that the elisors will be appointed, and the summoning of the venire for the jury begun Wednesday. It is the desire of both sides, if possible, to have the panel ready by Monday, so that the actual work of the trial may begin at the earliest possible moment.

ECHO OF INCUBATOR BABY CASE

Governor Stubbs to be Asked to Parole Detective Before He Serves Any Time.

Topeka, Oct. 10.—Gov. Stubbs is to be asked to parole F. H. Tillotson, the convicted kidnaper of the incubator baby. The Kansas supreme court handed down a decision holding that Tillotson must serve a term in prison for the deed.

Kansas City and Topeka friends of Tillotson immediately began working to secure a parole for the detective. There will be a hearing before the governor Thursday when it will be shown that Tillotson is breaking in health and mind on account of his troubles and the governor will be asked to release him on parole without serving any time in prison, on the promise that Tillotson will not undertake any act in his detective work where there is the least suspicion that it might be unlawful.

Army of Tennessee Reunion.

Council Bluffs, Ia., Oct. 10.—For the forty-first time the survivors of the Army of the Tennessee met today in annual reunion. With them met the Iowa commandery of the Military Order of the Loyal Legion, the survivors of the Fourth Iowa infantry and of Dodge's Second Iowa battery. The Fourth Iowa was commanded by Col. (now Gen.) Grenville M. Dodge, who has been president of the Society of the Army of the Tennessee since 1891. The veterans were welcomed by the governor and the mayor, and will be entertained here until tomorrow night.

Convention of Spiritualists.

St. Louis, Mo., Oct. 10.—The nineteenth annual convention of the National Spiritualists' association opened today in the Planters hotel. The meetings will continue for four days and will be addressed by a list of noted speakers. In addition to the addresses and business of the convention, arrangements have been made to hold seances through the medium of famous spiritualists in the evenings.

TO NOMINATE BY PRIMARY

Republicans to Name Candidate to Succeed Madison, November 10.

PLAN HAD LITTLE OPPOSITION

All Candidates Must File Names by October 20—Adopted Resolutions in Memory of Judge Madison.

Hutchinson, Kan., Oct. 10.—The Republican primary, to nominate a Republican candidate for congressman from the Seventh district, will be held November 10. The congressional committee so decided at its meeting here. The polls will be open in all the precincts of the district from 2 o'clock in the afternoon until 8 o'clock at night. This will cause the election to fall upon December 27.

The committee meeting was perfect so far as harmony was concerned. While some of the members from a few of the western counties came to town ready to fight for the old time convention system they soon found that the great majority of the committee was in favor of a primary, so the primary plan was adopted without a murmur.

Under the rules adopted by the committee all candidates for the nomination must file their names with the congressional committee not later than October 20. The candidates will divide the expense of the primary. This expense will be small. In fact, from the very start of the meeting every effort was made to keep the individual expense of the candidates as low as possible in order, as one of the members said, that there might not be any chance for a scandal as was the case in a district where $3,000 entrance fee was demanded.

R. J. Hopkins and Judge Frank L. Martin, active candidates for the nomination, attended the meeting as spectators. Each made a short talk, eulogizing the late Representative Madison, and each pledging to support the nominee. O. W. Dawson of Great Bend, also made a few remarks. John W. Kinkle of Hutchinson was chosen temporary chairman to succeed the late J. U. Brown, former chairman, and Roscoe Yilson of Jetmore was selected temporary secretary of the commtitee. Appropriate resolutions were adopted in memory of Judge Madison and Mr. Brown.

WILSON NOT TO CHANGE PLANS

To Serve Brewers in Spite of Petitions From Kansans and Many Other Citizens.

Washington, Oct. 10.—Unless the present mood of Secretary Wilson undergoes radical change, the prayers of those who are seeking to turn him from his purpose of acting as honorary president of the International Brewers' congress in Chicago October 12 will prove unavailing. The secretary says:

"My plans are made and I do not contemplate changing them. I have accepted the invitation to address and serve the congress, and I will fill the engagement."

Will Seize Unripe Oranges.

Washington, Oct. 10.—The department of agriculture has prepared for confiscation of any shipments of unripe oranges or other unripe fruit from Florida. Secretary Wilson has announced that any attempts to ship artificially ripened fruit out of Florida or to "process" unripe fruit on its journey to the North would be the signal for government activity.

TAYLOR TO DEKALB COUNTY.

And Prof. Cameron Will Go to Clinton County.

President Taylor of the Normal will leave Thursday for DeKalb county to attend the county teachers' meeting at that place. He is on the program for an address. Prof. Cameron is to go to Clinton county on the same day to attend a teachers' meeting. On account of several of the meetings being held on the same day, the Normal faculty has to divide up so as to be able to have a representative at these meetings.

County associations will be organized soon. The members of each county in the normal district are now getting busy, and the organization will be perfected in a few days.

TWO NEW AUTOMOBILES.

One Bought by Joseph Jackson, Jr., and the Other by Paul Sisson.

Barmann & Wolfert sold Monday two Ford automobiles, one to Joseph Jackson, Jr., and the other to Paul Sisson. Mr. Jackson's car is a five passenger car, while Mr. Sisson purchased a single seat car. The cars were driven up from St. Joseph Monday night by Earl Barmann and Dr. E. C. Braniger, being accompanied by Mr. Jackson and Mr. Sisson.

Is Guest of Brother's Family.

Miss Maud Whitchurch of Savannah arrived in Maryville Tuesday noon and is the guest of her brother, F. E. Whitchurch, and family. Miss Whitchurch will demonstrate the Schuyler Electric washing machine and vacuum cleaner for business men of our city. She demonstrated this machine at the state fair at Sedalia, and it was given the blue ribbon over eight other machines exhibited. Miss Whitchurch has met with fine success as a demonstrator in other lines, and will be remembered by many of our people in her work here two or three years ago. The Schuyler machine is manufactured in Savannah.

Went to Kansas City.

Mr. and Mrs. Halbert R. Catterson and little son went to Kansas City Tuesday morning to attend the American Royal stock show. Mr. Catterson will assist his father, Omer Catterson, in his display of Aberdeen-Angus cattle. Mrs. Catterson will be the guest of a former college mate, Mrs. R. E. Fuller. Her little daughter will remain the guest of her grandmother, Mrs. Omer Catterson, as she preferred our street fair to the American Royal show.

Had Guest From Arizona.

Mrs. J. F. Woodring of Phoenix, Ariz., was the guest of Mrs. Scribner Beech, Jr., from Friday until Monday evening, when she went to Barnard to continue her visit there with her grandmother, Mrs. A. J. Dearing. Mrs. Woodring, who was Miss Mayme Dearing, makes annual visits to her grandmother, who reared her from babyhood to young womanhood. She will leave for her home in Arizona Saturday.

Have Been Visiting Relatives.

Mrs. Florence Chrissen of Guthrie, Okla., and Mrs. E. W. Sullivan of El Reno, Okla., who have been visiting the families of Brice C. Hall, near Wilcox, and John Hall, living southeast of Maryville, and other relatives, left Monday evening for Wellington, Kan., to visit other relatives before returning to their homes.

Mrs. Minnie Sunderland of Chicago is the guest of her brother, C. D. Leffler, and family. Mrs. Sunderland is on her way home from a visit in Denver, Col.

MISSOURI IS BEST

STATE REALLY SHOWS WHERE OTHERS MERELY PROMISE.

FOOLISH TO EMIGRATE

Alluring Offers of Other Sections Not So Safe as Those Nearer Home.

Jefferson City, Oca. 9.—In an advance bulletin from the bureau of labor statistics, given publicity today, Commissioner Austin W. Biggs makes an appeal to the Missouri farmers who are being lured away from their state to other sections of the United States and to Canada, and sets forth the advantages they have within their grasp in Missouri. Since Commissioner Biggs and his deputies started their campaign to bring to Missouri a great number of desirable immigrants they have received letters from Missourians who left their native state with dreams of better and fairer lands flowing with milk and honey. With very few exceptions these people write of shattered dreams and often of shattered fortunes. The bureau is doing everything within its power to welcome these homesick wanderers back to the fertile fields of Missouri, and is also collecting information showing the Missouri farmer what his own state has to offer in the agricultural line. The bulletin, in part, is as follows:

"There is not a claim put forth by other sections which cannot be met or counter balanced by Missouri and, in addition, Missouri can advance many claims, supported by facts and figures, which no other section can meet. Situated in the center of the nation and in the midst of the rich and fertile Mississippi valley, being neither classed with the east, west, north nor south, but partaking of the best of each, Missouri ranks high as an agricultural state."

"The western states are known as great fruit producing sections, yet in South Missouri there is a fruit belt which offers greater opportunity for profitable investment than can be found in any other state. There the thousands of orchards yield immense profits because the soil and climate are especially adapted to fruit growing and because the markets of the middle west are near at hand. Missouri leads in the production of tempting big red apples and sweet, juicy peaches; during 1909 $1,678,307 worth of large red and tasty strawberries were grown and marketed and the value of the surplus fruit crop reached the great sum of $7,000,000. A wonderful showing considering the fact that only a small portion of the land that could and should be devoted to the growing of fruit is being utilized.

"Other sections are famous because of the grain they produce, yet as a matter of fact Missouri ranks third as a corn producer and usually seventh in the production of wheat.

"Other states advertise their garden spots, which usually have to be irrigated and are so far removed from the great markets that it is almost impossible to sell fresh vegetables other than locally, yet if the Missouri gardener is alive to his opportunities he has a much better proposition at home. The rich bottom lands throughout the state, sufficiently watered by rainfall and blessed with plenty of sunshine in close proximity to the great city markets, not only of this state, but of those surrounding, and with rapid facilities for the transportation of this class of produce, offers opportunities far greater than can be found elsewhere. Last year the several Missouri counties sold 2,000,000 bushels of potatoes, 1,500,000 bushels of tomatoes and millions of watermelons, each rich, red and luscious; while the value of the surplus vegetables of those counties totaled $5,673,353, and the markets are crying for millions more of these products.

"Why go to a western state to raise cattle when Missouri offers such a profitable investment to the dairyman? The fact that the hills of this state are covered with tender green bluegrass and nourishing wild grasses which are required for rich milk and good butter and her vales flowing with sweet fresh water where the sleek old 'milkers' can drink their fill and then retire to the shade of the trees on the hillside to rest and chew their cuds until their appetites return for the feast nature spreads before them; all of this, together with the fact that all forage crops are grown here, goes to prove that cattle raising and dairying naturally belong to the state. With the dairy interests only partially devel-

GALA WEEK STARTS

MARYVILLE STREETS HAVE ON THEIR HOLIDAY ATTIRE.

PRIZE WINNERS TUESDAY

First to Mrs. Sanders' Car, Second to Miss Corwin's Car, Third to Dr. Fisher's Car.

This Evening's Program.

7:00—Free attraction by the McCoys on platform at Second and Main.

7:30—Free attraction by the Rosards in their marvelous iron jaw and ring act, on the platform at Third and Market streets.

9:30—Free act by the Flying Bickets, on Fourth, between Main and Market streets.

10:30—Free act by Captain Nick Carter, champion high diver of the world.

Wednesday's Program.

Horse and mule show on Main street, in front of court house, in the morning and afternoon. Free attractions will also be given both morning and afternoon, but the program has not been made out at this time.

The opening of Maryville's gala week commenced today. Monday evening no free attractions were given, as they were not ready, and only a few of the shows were ready to open. A concert was given on the streets by the Maryville band, and what shows were ready were given.

The uptown streets presented a beautiful appearance Monday night with all of the electric lights on and the decorations that are up on the streets and in the booths. The city has never been decorated any prettier than it is for this fair.

The attendance at the fair this afternoon was good. Many out-of-town people were in the city and the uptown streets were crowded with throngs of people.

The Albany band, which arrived in the city Tuesday morning, gave a concert in the court house yard at 11 o'clock. The band is to be here all week and is a good one.

This afternoon a free attractions was given at 1 o'clock at the platform on Main and Fifth street by Rosards in their marvelous iron jaw and ring act. The act was a very creditable one. Another free attraction was given at 2 o'clock by the McCoys at Third and Buchanan streets. They do a wire act.

The automobile parade was billed for 1:30 o'clock, but was a little late in starting. While there were not many automobiles in the parade, those that were in were beautifully decorated.

The judges were Dr. R. L. Batz of Skidmore, B. B. Staples, Jr., of Burlington Junction, and Eugene Dowis of Sheridan.

Mrs. R. G. Sanders won first prize for having the best decorated automobile in the parade. The second prize went to Miss Mae Corwin, who drove the Corwin electric car. The third prize went to Dr. A. T. Fisher.

As there was only one out-of-town car in the parade, that being John Sewell of Burlington Junction, he won first prize in the out-of-town cars. The second prize in this class will probably be given to the fire team.

In the lucky class, where everyone entering the parade had a number and a general drawing took place, Miss Mae Corwin winning first prize, the police patrol wagon second, and Dr. A. T. Fisher third, Mrs. R. G. Sanders fourth and John Vert fifth.

The parade was headed by the Albany band, and the following are the machines with their occupants:

No. 1—Driver, Miss Mae Corwin, accompanied by Miss Deana Sisson. Decoration, water lilies with green background.

No. 2—G. B. Roseberry, driver; E. G. Orear, F. G. Shoemaker, Ed C. Curfman, Nick Sturm. Decorations, peanuts and festooning.

No. 3—J. W. Vert, driver; Mrs. J. W. Vert, Mrs. Harry Todd and family. Decorations, red and white festooning.

No. 4—Dr. A. T. Fisher, driver; Miss Hermoine Fisher, Miss Ezora Mutz.

No. 5—Mrs. R. G. Sanders, driver; Miss Retta Sanders of St. Joseph and Miss Marian Sanders. Decorations, wistarias and lavender chrysanthemums.

No. 23—Police patrol, Jesse Fisher, chauffeur; Policemen John Wallace, Frank Bolin, Felix Grundy, John Borrusch and M. H. Borrusch.

City fire department.

Notes.

The Normal closed at noon today in order to give the students a half holiday for the street fair. They will probably close on Thursday afternoon.

* * *

Some of the good shows that have been recommended by the committee are the Alabama minstrels, Walcott's wild west show, the Old Plantation, Mike's museum, Poole's vaudeville and Howell's glass blowers. There are other shows probably as good.

* * *

The street lights go off every night at 12 o'clock.

* * *

So far the police have had no arrests to make on account of drunkenness or disturbance. If only this could keep up all week!

* * *

Congressman Charles F. Booher of Savannah took in the fair this afternoon. Congressman Booher said that he would be back again Thursday.

* * *

Those funny, irresponsible times have commenced, those street fair times, when the band is playing all the time about something or other, and the crowds are going around all the time, mostly for nothing, and everybody laughs at everybody else and they don't know just what about. Just the relaxing time, when you don't have to go primped up and can stand around, look at the redhot candy man make candy, and the hot tamala man make sandwiches, and smile at the bow-wow man ————'s little bow-wows, and keep your eye on the indicator as he tells you to while some one else gets the bow-wow. Last night's crowd was a good first night crowd, and everybody seemed in fine spirits. The places that seemed most popular were the merry-go-round and the bow-wow stand. All kinds of folks rode on the merry-go-round, and little Billie Bailey took his first ride and enjoyed it finely. Some other tiny little folks had a ride whose names we did not know.

* * *

The corn contest booth, erected by the Alderman drk goods store and the Field-Lippman piano firm, where they will conduct the corn contest, is indeed handsome and is attracting much attention. The booth is fifty feet long and fourteen feet wide. The roof has a gable effect by means of pyramids in red and white. The pillars are made of corn and the entire outside has the appearance of being built of corn. Four hundred yards of white muslin and red bunting are used in the decorations and three thousand ears of corn. The work was done by men representing the two firms and is a credit to them.

* * *

All the booths are well built and decorated in the street fair colors of red and white, making an attractive sight with the flying pennants on all the streets about the square. The Chinkey Chonkey booth looks quite pretty and inviting, and the rustic booth of the Bee Hive is quite out of the ordinary. The Royal Neighbors, Woodmen of the World, Rebekahs, Odd Fellows and Owl lodges have commodious booths and are gay in the lodge and street fair colors. The Scott music store, the Montgomery shoe store, the Fern theater, Hudson & Welch, Maryville National bank and D. R. Eversole's store have rest booths for all who wish to avaid themselves of them. Hansen's big cigar booth is a-plenty conspicuous.

* * *

The show windows present a pretty appearance everywhere. The two furniture stores are the most attractive, probably, while the millinery stores are prettier than a little red wagon. The grocer windows are fine, their goods showing to fine advantage.

* * *

At G. L. Allen's store, on the east side is a display of pumpkins, corn, sweet potatoes, beets, popcorn and apples by John M. Holt, that were raised by him on his five-acre tract, west of Maryville, that would do to show at the state fair. The vegetatbles were grown from seed handled by Mr. Allen. The sweet potatoes are the White Jerseys, the Irish potatoes the Early Ohio, the corn Reed's Yellow Dent, Iowa Gold Mine and Boone County White

Returned From Kansas City.

Mrs. O. C. Hanna returned Tuesday noon from a week's visit in Kansas City with Mrs. Dr. R. L. Ready, formerly Miss Inez Drenmon. She was accompanied home by her son, Forrest W. Hanna, who has been in Springfield, Mo., on his business as accountant for the department of labor and commerce.

Mr. and Mrs. Walter Johnson of Pickering were in the city Tuesday attending the street fair and visiting Mr. Johnson's parents, Mr. and Mrs. J. M. Johnson.

NEW TANK AND SILO

REINFORCED CONCRETE, MOST DURABLE CONSTRUCTION KNOWN

WILL LAST A LIFE TIME

Interesting Exhibit at Street Fair, for Which Our Townsman, W. W. Jones, is General Agent.

One of the most valuable exhibits on our streets during this week, and one which should be especially interesting to the farmers and stock raisers of this section, is the Hurst sectional concrete tank. This exhibit is on West Third street, and shows the tank set up all ready for the concrete joining. The Hurst company also manufactures a sectional concrete silo, for which they claim the same advantages as possessed by the water tank.

W. W. Jones, who is the general agent for the territory of Northwest Missouri, Southwest Iowa and the adjoining part of Nebraska and Kansas, in speaking of the tank and silo to a representative of this paper, strongly emphasized the durability of the construction, which is guaranteed to last a lifetime without cracking or leaking.

"If a farmer buys the very best made wagon on the market," said he, "he expects to eventually have to replace it, or a set of scales, or anything else he uses on the farm, but with this it is different. The first expense is the total expense. Once in, the thing is done. And the expense is not as great as you might expect. On tanks of a greater capacity than thirty barrels the expense is no more than for wood or galvanized iron, while naturally on smaller sizes it is slightly more.

"While the concrete tank and silo are new to this section, yet these silos and tanks have stood every possible test for ten years and have been sold in the market for seven. In that time they have made many firm friends and have received many strong indorsements.

"Hon. A. J. Lovejoy, general superintendent of the fair grounds of the Illinois state board of agriculture, says of our tanks: 'We feel that the matter of water tanks is now settled for all time, and that you have the best possible tank to be had.'

"Among the many who have thoroughly tested them are L. F. Swift of Swift & Co., Chicago, and Thomas Harborn, superintendent of James J. Hill's great Michigan stock farm. We believe we have really the best thing ever offered for the permanent improvement of the farms in this section."

Certainly no up-to-date farmer attending the street fair this week will fail to see this latest and most useful article of concrete construction.

2,000 Barrels of Jonathans.

J. D. Ford of this city is busily engaged in barreling his apples from his famous orchard, near Parnell. The workers have just finished barreling his crop of Jonathans, which measured up 2,000 barrels. They are beginning this week on the remainder of the crop, which consists mostly of Ben Davis, which it is likely will measure fully double the crop of Jonathans.

Not ANY Glasses

Don't forget that there ARE Glasses that will do your eyes more harm than good.

The lenses for YOU must be ground to your measure, just the same as a druggist puts up a prescription.

Glasses chosen in any other way are a positive danger.

This point cannot be given too much emphasis.

It is as easy for you to get the right kind as the wrong.

We will choose them for you, and do it in such a way that mistakes are impossible. At

New Son in Washington.

Mr. and Mrs. Daniel Orr of Spokane, Wash., announce the birth of a son to them, September 29, 1911, whom they have named Mark Kennedy Orr. Mrs. Orr will be better remembered in Maryville as Miss Chassie Kennedy, who was a well known teacher of this county.

Mrs. C. S. Bishoff of Columbus, Kan., arrived in Maryville Tuesday from Omaha, where she had been visiting her sister, and will spend several days here with Mrs. N. W. Templeton and other friends.

Averts Awful Tragedy.

Timely advice given Mrs. C. Willoughby of Marengo, Wis. (R. No. 1), prevented a dreadful tragedy and saved two lives. Doctors had said her frightful cough was a "consumption" cough and could do little to help her. After many remedies failed, her aunt urged her to take Dr. King's New Discovery. "I have been using it for some time," she wrote, "and the awful cough has almost gone. It also saved my little boy when taken with a severe bronchial trouble." This matchless medicine has no equal for throat and lung troubles. Price, 50c and $1.00. Trial bottle free. Guaranteed by the Orear-Henry Drug Co.

MISSOURI IS BEST

(Continued from page 1.)

oped and with unlimited opportunities for profitable development. Missouri counties in 1909 had a surplus of dairy products amounting to nearly $15,000,000, not considering what was consumed at home. The value of surplus cattle for the same year was $60,000,000 and the surplus live stock, in which is included the famous Missouri mule totaled nearly $150,000,000.

"Missouri is the poultry queen of the Union; she offers the best opportunity for sheep raising to be found in the United States; she has prolific annual production of tobacco, hay, clover, grapes, honey, etc.; and the surplus products of this character in her 114 counties totaled over $340,000,000 for 1909.

Other localities may advertise their invigorating climate, but the Indian summer of Missouri is the most delightful season to be found in the world. During the warm months of the year there is an absence of the blinding sun and burning heat of the south and southwest, where a man's ambition is cooked by the heat and his foresight blinded by the blowing sands. There is an absence in winter of the blizzards and norther of the north and northwest, especially those frequent in Canada, which sweep down on the inhabitants, sending them shivering and freezing to their firesides, from which they dare not stir for days. Missouri, being situated in the center of the temperate zone, does not have to deal with such conditions, but the elements are so blended as to be pleasant and beneficial to both man and beast.

"The Missouri farmer, when urged to go west or north, should stop to consider the fact that he will have to master a new method of farming. The bounteous supply of pure running water and the sufficient rainfall furnished in Missouri by nature, remove from the hand of man the necessity of furnishing water for his crops and stock. With a plentiful supply of water, all the farmer has to do is to carefully till the soil and reap the harvest."

HIS TROUBLE NOT OF HEART

Real Facts In Regard To F. R. Huffman's Illness. Relief Obtained By Curing His Stomach Ailments.

Waynesville, N. C.—Mr. F. R. Huffman, of this city, says: "I suffered dreadfully with what I thought was heart trouble, and tried various medicines in vain.

After other remedies had failed, Thedford's Black-Draught restored me to health. I would not feel safe without Black-Draught in the house. I consider it worth its weight in gold.

It cured my indigestion, and by this means I was restored to health. I can not express my gratitude for its benefits."

Good health depends on the condition of your digestion. Poor digestion and good health do not go together.

Thedford's Black-Draught will thoroughly cleanse and set in order your digestive system.

It has done this for others, during the past 70 years, and is today the most popular vegetable liver remedy on the market. Try it.

ASSAULTED FOR REVENGE?

MAN ATTACKED BLAMES EX-PRISON OFFICERS.

J. P. McDonough Thinks Leavenworth Men Deposed by His Testimony Responsible for Wounds.

Kansas City, Oct. 10.—Revenge by the deposed officials of the federal prison at Leavenworth is believed by J. P. McDonough to be the cause of the wounds he received here at the hands of a stranger. McDonough was active in obtaining evidence against officials in the recent investigation of the prison that resulted in the dismissal of a deputy warden and a superintendent. He has been followed and he thinks that the attack was a result of his collecting evidence and lecturing on the conditions at the prison.

McDonough was accosted on the street by a stranger who introduced himself and complimented Mc.Donough on the lectures he had been giving. They walked to Eight and Main streets together when the stranger invited McDonough into a restaurant. Once inside, the man began to talk about the prison officials who had been discharged and to curse Mcdonough for his part in their dismissal. They left the restaurant and stood on the sidewalk quarreling when the man reached toward his pocket as if to draw a gun. He struck the man who drew a knife stabbing McDonough six times in the abdomen and once in the neck. He then ran east on Eight street.

NAVY YARD SHORT THREE MILLIONS

Scandal May Be Revealed As Result of Discovery.

NO INVENTORY FOR MANY YEARS

Discovery of Shortage Created a Sensation in Department—Faulty Bookkeeping Methods Blamed by Officials.

Washington, Oct. 10.—A big scandal is brewing in the Washington navy yard. The navy department has discovered that there is approximately $3,000,000 less material at the yard than the records call for. Whether this is due to graft or faulty bookkeeping remains to be seen following an investigation started by Secretary of the Navy Meyer. A sensation was created at the yards and the department when this became known.

The shortage has been growing for 25 years. At least, in that time, until within the last few weeks, there never has been an inventory of stock. Now, after an inventory made at Mr. Meyer's suggestion, the discovery is made that there is a discrepancy of more than $3,000,000 between the material on hand and that which should be there, according to the books.

While Mr. Meyer is not yet in possession of facts to warrant the belief that there has been graft at the Washington yard, he is still pursuing the investigation and cannot foresee just what may develop.

Though the condition is laid to loose bookkeeping, at the same time the department says that similar inventories have been made at other navy yards when the same old fashioned method of accounting was discontinued and no substantial loss of materials was found in them.

It was said that combined with the loose methods of bookkeeping was the fact that much ordnance material had been sent to other navy yards without proper invoices; that great quantities of material had been forwarded to the ships in the Spanish-American war without any record of the amount being kept, and that much valuable material was even now being used in construction which might be deducted from the total discrepancy.

A HARMLESS WAY TO DARKEN THE HAIR

A Little Sage and Sulphur Makes Gray Hair Vanish—A Remedy for All Hair Troubles.

Who does not know the value of sage and sulphur for keeping the hair dark, soft, glossy and in good condition? As a matter of fact, sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than sage and sulphur, if properly prepared. The Wyeth Chemical company of New York put up an ideal remedy of this kind, called Wyeth's Sage and Sulphur Hair Remedy, and authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

If you have dandruff, or if your hair is thin or turning gray, get a bottle of this remedy from your druggist today, and see what it will do for you.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agents, Koch Pharmacy.

STORM DESTROYED A TOWN

ONLY DEPOT AND PUMPHOUSE LEFT IN ORTIZ, MEX.

Mississippi Rising a Foot an Hour at La Crosse—Black River Falls May Not be Rebuilt.

Nogales, Ariz., Oct. 10.—Wire communication has been established with Ortiz, Mexico, and details of the loss of life and general property damage caused by the storm which swept the west coast of Mexico have been learned.

At Ortiz the telegraph operator stretched a cable from the depot to a group of houses, bridging the torrent. By using the cable, practically all of the inhabitants were saved, but several women and children lost their holds while being transferred and perished.

Two persons are known to have been drowned between Ortiz and Willard. Not a house is left in Ortiz, except the depot and a pump house. The marooned persons lived on the flesh of goats, hogs and cows that they pulled from the water as they drifted past the depot.

La Crosse, Wis., Oct. 10.—The flood from the Hatfield dam is now sweeping the country just north of La Crosse and is increasing the height of the river here at the rate of an inch an hour.

The Northwestern railroad tracks north of La Crosse and Onalaska are under water, there having been in some places a rise of 15 feet since the waters began to go up. Traffic is completely cut off.

That Black River Falls, wiped out by the flood, may not be rebuilt at all, is the opinion of many.

One of the distressing results of the flood will be the filing of petitions in bankruptcy by many merchants. Losses from $20,000 to $50,000 are numerous.

The ladies' auxiliary committee of the Chicago Life Underwriters' association has made arrangements for special entertainment of the ladies who accompany the delegates and visitors.

LEAVENWORTH IS AGAIN RAIDED

Attorney General and Assistants Returned and Got 75 Cases of Beer —General Raid Started.

Leavenworth, Kan., Oct. 10.—Attorney General Dawson and T. J. Montgomery, an assistant attorney general, came to Leavenworth again and started on another series of joint raids. The two officials hurried to the old Brandon & Beal brewery, at Second and Kickapoo streets. There they found 75 cases of beer in storage. The beer was loaded into a wagon and sent to the county jail, after which the officers started on a general raid through the north part of the city, where a number of bootleggers operate, getting patronage from coal miners and soldiers.

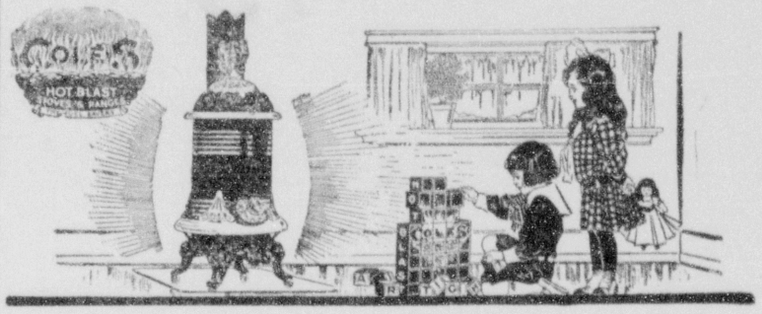
FREE SAMPLE OF LAXATIVE CURED HIS CONSTIPATION

When a person has become discouraged through years of failure to find a cure, and finally, perhaps, gives up trying, it is small wonder that he becomes skeptical. And yet, to all who have constipation, we would say, "Try just one thing more."

We wish you would try Dr. Caldwell's Syrup Pepsin, a laxative tonic that has been used for a generation. Thousands are using it; surely some of your friends among the number. You can buy it of any druggist at fifty cents and one dollar a bottle, but better still, send your name and address to Dr. Caldwell for a free sample bottle. He will send you enough to convince you of its merits, and then if you like it you can buy it of your druggist. Mr. J. J. Petty of Unionville, Mo., Mr. George W. Zimmerman of Harrisburg, Pa., and many others of both sexes and in all parts of the country first used a sample bottle and now have it regularly in the house.

You will learn to do away with salts, waters and cathartics for these are but temporary reliefs while Dr. Caldwell's Syrup Pepsin is guaranteed to cure permanently. It will train your stomach and bowel muscles so that they will do their work again naturally without outside aid. Cast aside your skepticism and try Syrup Pepsin.

For the free sample address Dr. W. B. Caldwell, 541 Caldwell building, Monticello, Ill.



Warm Floors and Healthy Children Make Happy Homes

There is no better way for you to avoid worry and expense than by insuring your children's health.

Warm floors in the home, which is the children's play house in winter, are assured when using Cole's Original Hot Blast Heater.

The steel base and body construction allows the heat to be radiated to the floor keeping it warm during the coldest weather.

Cole's Original Hot Blast Heater

The Cleanest—Easiest to Care For

Burns Soft Coal, Lignite, Hard Coal, Crushed Coke, Wood and Cobs.

Users of coal must remember that the ordinary heater is a big care to operate. That its smoke and ashes entail dusting, curtain washing and carpet sweeping. Think then of the ease of operation and the cleanliness of Cole's Hot Blast.

Cole's Hot Blast has a guaranteed smoke-proof feed door—open the feed door and the current of air draws the smoke directly across the top of stove to the stove pipe—away from the opening. Contrast this simple, cleanly feed with the side door in an ordinary heater. The side door used on other stoves permits escape of dirty smoke, unpleasant gas and accumulated soot drops from it. If you overfill a side door stove, coal falls to the floor. And note this, you cannot make a side door heater air-tight—an everlasting advantage in favor of Cole's Hot Blast which is air-tight and guaranteed to remain so always.

No fires to build—the fire is never out in this remarkable heater from fall until taken down in the spring.

Better select one today—surely it is the heater you need—

WAS HYDE JURY APPROACHED?

Preparation for Second Trial May Show Attempted Bribery.

STATE GATHERING TESTIMONY

Charges Made That Use of Money Was Attempted at First Trial of Famous Case—Prosecution to be Vigorous.

Kansas City, Oct. 10.—Startling testimony of attempted bribery in the Hyde case is being gathered by the state and will be introduced in case any charges are made by attorneys for Dr. B. Clark Hyde in their application for an elisor to take charge of the jury which is to try him for the second time.

Affidavits are being gathered from the deputy marshals who were in charge of the jury, from the tenor of which it is shown that undoubtedly there was an opportunity to obtain money had any one been anxious to do so. The state is investigating the renting of a room in the Ashland hotel at Missouri and Grand avenues, where the jury was confined during the hearing of testimony and its deliberations upon the verdict. This room was rented several days before the jury was called and was located next to the jury room. It was occupied by two men, who, it is said, had $5,000 in their possession and who seemed anxious to communicate with the jurors.

Another piece of testimony of which the state is in possession is that two men, other than the two who were at the Ashland hotel, constantly attempted to get in touch with the jury and at one time managed to get so close that they had to be forcibly removed by deputy marshals.

None of the affidavits taken so far, it is asserted, bear out the charge made indirectly, that deputy marshals solicited bribes.

Declaring that the county marshal and his deputies were biased and prejudiced, and that the coroner was incompetent to serve as marshal because he was a material witness for the state, Dr. B. Clark Hyde has filed a motion for one or more elisors to act during his second trial, set for next Monday.

The law provides that the court shall grant a motion for an elisor on the affidavit of any reputable attorney, and it may be that the affidavits of the Hyde lawyers will be sufficient. Virgil Conkling, prosecuting attorney, is giving the Hyde case his undivided attention and will conduct a prosecution more vigorous, if possible than the first.

Should the state not oppose the appointment of elisors, the hearing will consume but a few moments, and it may be that the elisors will be appointed, and the summoning of the venire for the jury begun Wednesday. It is the desire of both sides, if possible, to have the panel ready by Monday, so that the actual work of the trial may begin at the earliest possible moment.

ECHO OF INCUBATOR BABY CASE

Governor Stubbs to be Asked to Parole Detective Before He Serves Any Time.

Topeka, Oct. 10.—Gov. Stubbs is to be asked to parole F. H. Tillotson, the convicted kidnaper of the incubator baby. The Kansas supreme court handed down a decision holding that Tillotson must serve a term in prison for the deed.

Kansas City and Topeka friends of Tillotson immediately began working to secure a parole for the detective. There will be a hearing before the governor Thursday when it will be shown that Tillotson is breaking in health and mind on account of his troubles and the governor will be asked to release him on parole without serving any time in prison, on the promise that Tillotson will not undertake any act in his detective work where there is the least suspicion that it might be unlawful.

Army of Tennessee Reunion.

Council Bluffs, Ia., Oct. 10.—For the forty-first time the survivors of the Army of the Tennessee met today in annual reunion. With them met the Iowa commandery of the Military Order of the Loyal Legion, the survivors of the Fourth Iowa infantry and of Dodge's Second Iowa battery. The Fourth Iowa was commanded by Col. (now Gen.) Grenville M. Dodge, who has been president of the Society of the Army of the Tennessee since 1891. The veterans were welcomed by the governor and the mayor, and will be entertained here until tomorrow night.

Convention of Spiritualists.

St. Louis, Mo., Oct. 10.—The nineteenth annual convention of the National Spiritualists' association opened today in the Planters hotel. The meetings will continue for four days and will be addressed by a list of noted speakers. In addition to the addresses and business of the convention, arrangements have been made to hold seances through the medium of famous spiritualists in the evenings.

TO NOMINATE BY PRIMARY

Republicans to Name Candidate to Succeed Madison, November 10.

PLAN HAD LITTLE OPPOSITION

All Candidates Must File Names by October 20—Adopted Resolutions in Memory of Judge Madison.

Hutchinson, Kan., Oct. 10.—The Republican primary, to nominate a Republican candidate for congressman from the Seventh district, will be held November 10. The congressional committee so decided at its meeting here. The polls will be open in all the precincts of the district from 2 o'clock in the afternoon until 8 o'clock at night. This will cause the election to fall upon December 27.

The committee meeting was perfect so far as harmony was concerned. While some of the members from a few of the western counties came to town ready to fight for the old time convention system they soon found that the great majority of the committee was in favor of a primary, so the primary plan was adopted without a murmur.

Under the rules adopted by the committee all candidates for the nomination must file their names with the congressional committee not later than October 20. The candidates will divide the expense of the primary. This expense will be small. In fact, from the very start of the meeting every effort was made to keep the individual expense of the candidates as low as possible in order, as one of the members said, that there might not be any chance for a scandal as was the case in a district where $3,000 entrance fee was demanded.

R. J. Hopkins and Judge Frank L. Martin, active candidates for the nomination, attended the meeting as spectators. Each made a short talk, eulogizing the late Representative Madison, and each pledging to support the nominee. O. W. Dawson of Great Bend, also made a few remarks. John W. Kinkle of Hutchinson was chosen temporary chairman to succeed the late J. U. Brown, former chairman, and Roscoe Yilson of Jetmore was selected temporary secretary of the commtitee. Appropriate resolutions were adopted in memory of Judge Madison and Mr. Brown.

WILSON NOT TO CHANGE PLANS

To Serve Brewers in Spite of Petitions From Kansans and Many Other Citizens.

Washington, Oct. 10.—Unless the present mood of Secretary Wilson undergoes radical change, the prayers of those who are seeking to turn him from his purpose of acting as honorary president of the International Brewers' congress in Chicago October 12 will prove unavailing. The secretary says:

"My plans are made and I do not contemplate changing them. I have accepted the invitation to address and serve the congress, and I will fill the engagement."

Will Seize Unripe Oranges.

Washington, Oct. 10.—The department of agriculture has prepared for confiscation of any shipments of unripe oranges or other unripe fruit from Florida. Secretary Wilson has announced that any attempts to ship artificially ripened fruit out of Florida or to "process" unripe fruit on its journey to the North would be the signal for government activity.

Wichita Policeman Injured.

Wichita, Oct. 10.—Policeman Geo. Horsley was probably fatally injured in an automobile accident here when the police auto collided with a big touring car.
